

ON LIVE SCHOOL

Bible stories for children. A network ready to share them.

Oikos Kids TV creates animated Bible stories that help children learn about Jesus, remember His teaching, and share what they have learned.

Why Oikos Kids?

We have a passion for the next generation to know Jesus and grow through the Bible. In many countries and languages, children have limited access to Bible resources created for them, and Oikos Kids exists to help meet that need.

What connects Oikos Kids and Live School?

Live School is a mission and discipleship program of the World Mission Centre. It equips local believers to plant churches and serve local communities.

Oikos Kids brings children's Bible stories and printable activities into this network, giving outreach teams resources to use with children.

Six stories are ready now

In **March 2027**, our six completed episodes will be included on flash drives distributed to **5,000 new Live Schools**.

Help us reach one million children by 2030.

What is Live School?

Training local people, in their own communities

Live School is a mission and discipleship program of the World Mission Centre. It equips local believers to plant churches and serve local communities.

1

A local church brings people together

Students learn close to home, alongside their families, work, and community life.

2

They learn and put it into practice

The curriculum includes 242 one-hour video sessions, with discussion and practical ministry.

3

Training travels with the community

Lessons are available through a portable unit connected to a television, downloads, or online streaming.

15 world languages. A global network.

Live School is available in 15 world languages, helping people learn in a language they understand (*English, Arabic, Bahasa Indonesia, Farsi, French, Hausa, Hindi, Korean, Mandarin, Mongolian, Portuguese, Russian, Spanish, Swahili, and Turkish*).

World Mission Centre has a presence in **over 100 countries**. Oikos will provide children's resources for use through this network in some of the languages.

Stories to understand, remember, and share

Already being used in India

Children take part in an Oikos Kids session. These real gatherings show how a Bible story can become something children watch, discuss, and remember together.

Six completed stories

Currently available in **seven languages**: English, Hindi, Spanish, French, Portuguese, Russian, and Arabic (more languages to come soon).

More than a video

Printable coloring pages and simple activities help children understand and remember each story.

Also on YouTube

Watch on **Oikos Kids TV**. Already, **70,000 children** have engaged with the content on YouTube.

The opportunity through new Live Schools

$$\begin{array}{ccccccc} \mathbf{5,000} & & \times & & \mathbf{30} & & = & & \mathbf{150,000} \\ \text{new Live Schools} & & & & \text{children per school} & & & & \text{children} \end{array}$$

At an average of 30 children reached through each school, the stories could reach **150,000 children**. We also plan to make resources available to some existing Live Schools.

Help create ten new stories

Six stories exist. The next ten need funding.

We are seeking **\$120,000 by March 2027** to enable us to create ten new episodes during 2027. These episodes do not yet exist. Their planned release in **early 2028** will bring the collection to **sixteen Bible stories**.

\$12,000

per new episode

\$120,000

needed by March 2027

Funding by March 2027 enables production during 2027.

What your support makes possible

The budget covers the creation of each new episode in all seven languages, including translation and adaptation, distribution, and digital, printable coloring and activity resources.

March 2027	Funding goal: \$120,000 to create ten new episodes.
During 2027	With funding, we create ten additional episodes.
Early 2028	Ten new episodes are released: sixteen in total.

Help us reach one million children by 2030.

Through new and existing Live Schools and YouTube.
